

CRYO PRO™ COLD THERAPY

dr. aktive®

COLD COMPRESSION THERAPY

Effective pain relief for
your recovery

brought to you by
MedFac

Why the Cryo Pro™ is ideal for rehabilitation:

Easy to use:

- The Cryo Pro™ is a simple-to-use product, requiring only ice, water, and power (mains or battery).
- The wraps are simple and easy to apply - one size fits all with the hook and loop fixing allowing the wraps to be adjusted to fit each patient correctly.

6 wraps to choose from:

- The Cryo Pro™ enables you to target specific areas of pain or swelling with our full range of wraps. These include 360 Knee, Shoulder, Ankle, Universal, Full Leg and Full Long Leg.

Easily portable:

- The unit comes with a handle which is designed to balance when water and ice are in the reservoir.
- There is also the option to use the portable bag and power bank so you aren't constricted to mains power.

Automated compression:

- Tailor your recovery with the Cryo Pro™! Choose between Low, Medium and High compression, simply press the play button and experience cold therapy relief.

RENTING A CRYO PRO™ DEVICE

Rent a Cryo Pro™ from £150.00 for 2 weeks rental, including the Cryo Pro™ unit and a wrap of your choice. To use 2 wraps simultaneously, rent the Cryo Pro XL from £300 for 2 weeks. The cost includes free next day delivery and collection to all mainland UK locations.

You can choose to extend your rental for £25 or you can purchase the unit with the price spent on the rental discounted from the total price.

Watch our set up videos on our YouTube channel @kinetecofficial for a demonstration of how to set up the device and apply the wraps.

COLD THERAPY BENEFITS

Reduce pain and swelling:

Encourage quick and effective healing for muscle, tendon and ligament injuries. Help to calm muscle spasms, minimise bruising and soothe nerve endings.

How does it work?

Cold compression therapy works by constricting the blood vessels, which in turn reduces swelling and inflammation. Cold therapy can also help reduce the amount of bruising by slowing down blood flow to an injured area.

Natural healing:

Cold compression can help reduce a patient's dependence on painkillers following injury.

INTRODUCING NEW! CRYO PRO XL RENTAL

Now rent the Cryo Pro XL too! The Cryo Pro XL brings all of the original Cryo Pro's cold compression advantages and ease of use with upgraded features:

- > Now use two wraps simultaneously using the dual hose
- > Bigger reservoir to keep the unit colder for longer
- > More powerful pump for superior compression

encourage quick
and effective
healing
